

Yuccamax™ NH Liquid
Yucca extract & Organic Acid

Reduces ammonia & Enhances Performance

Composition

Each Litre Contains-

Yucca extract	65,000 mg
Formic acid	85,000 mg
Phosphoric acid	150,000 mg
Propionic acid	100,000 mg

Indication

Yuccamax™ NH Liquid is a premix of organic acids associated with saponins of vegetal extract with antiureasic activity.

Acidifying activity: Creates an anti-bacterial barrier at the level of the stomach. Helps to improve the digestion and stimulates intestinal motility. Controls the multiplication of the intestinal flora.

Antiureasic activity: Avoids the formation of ammonia at intestinal level, achieving an improved environment. It also protects the liver, improves intestinal absorption and natural digestion.

Helps to avoid disorders like Colibacillosis, Hepatic intoxication by ammoniemia, presence of undigested feed in faeces, nutritional diarrhoea with damp bedding.

Dosage & Administration

Shake well before use.

Poultry & Cattle: Administer in the drinking water at the dose of 1 ml/7-8 Liter of water.

Side Effects

It has no side effect at recommended dose.

Toxicity

It is non-toxic for animals & human body.

Withdrawal Period

Nil.

Storage Condition

Store 25° C temperature & protect from light. Keep out of the reach of children.

Pack Size

100 ml
